- Circling Approaches

Make the Most of Your EASy Flightdeck With the EASy II Upgrade

With EASy II, Dassault and Honeywell propose new functionalities and improved capabilities based on customer requests while meeting new regulations and operational changes.

The key features of EASy II improve situational awareness, safety, operational efficiency and accessibility to airports. EASy II Baseline is both a software and hardware upgrade (20 modules changed).

Beyond the added features, EASy II baseline is also the pre-requisite step for all upcoming options such as WAAS-LPV, ADS-B Out, SVS, ADM, XM of MFD, CPDLC-ATN B1 & CPDLC-FANS 1/A+.
EASy II Baseline

The installation includes the following features:

- HUD-like free floating flight path symbology
- FMS Upgrade to 7.1
